

## AA3

Once the music plays, the imagination does the rest.

A high-efficiency three-way horn loudspeaker. This design highlights the qualities of amplification, aspiring to be a more natural sounding amplifier. Inspired by the work of Western Electric, we offer a product that, compact as it is, also retains the essence of iconic speaker systems. Its characteristics bring out a level of humanity to playback and turns listening into a unique experience.

### Technical specifications.

Description:	High efficiency 3 way speaker.
Response frequency:	40hz-20khz.
Sensitivity:	105db.
Impedance:	8 ohms.
Dimensions:	810x1400x705 mm.
Number of ways:	Three.
Drive units:	Exponential 15" . Exponential compression driver. Exponential 1".
Connectors:	6 female socket banana plug connectors.
