

## AA4

**You can only find what you are looking for with clarity.**

The ever-evolving AA4 possesses a rich and captivating tone. The music is right there, in front of us with all of its force, the stage ready to expand into the room. With a three-way horn concept, this model pushes the qualities of the driver system to the limit.

The exponentials are designed to deliver the highest level there is, achieving a precise mechanical adjustment which offers us a minimalist filtering. The adjustment procedure has been carried out both in anechoic chamber as well as in the listening room.

Hundreds of test runs and failed attempts were undertaken to arrive at the excellence of this nearly flawless product.
